### 2.2.3

#### Response:

The development of a student as a whole is one of the principal aims of the institution, and the entire academic, extramural, sports and other enable one to attain all dimensions of personal, social, intellectual, emotional, physical and psychological development. RCDSR admits students from different backgrounds, regions and religions. One of the areas where we pride ourselves on being unique is identifying, nurturing and developing extracurricular talents of our students. All our students are given the opportunity to come forward with their interests, skills and talents apart from the field of dentistry. These students are then provided with the platform to showcase their skills in various inter-college and intra-college sports and cultural events.

The institution has superior sports facilities and auditoriums available which our students can access freely to practice and develop their extra- curricular skills.

The competitive spirit of participating against each other in intra college events

- Students of different batches working together as a team thereby enhancing and embracing the word “teamwork” in inter-college events.
- Inculcating the organizational skills involved in the conducting these events from beginning to their successful completion by playing the role of a host.
